PENNSYLVANIA
SOLAR CENTER

Permanent Energy Savings with a **Solar Energy Loan**

Solar energy systems offer stable energy costs below the rising cost of electricity that can benefit nonprofits. The Solar Energy Loan from Bridgeway Capital in partnership with the PA Solar Center helps nonprofits acquire solar energy systems for their facilities to achieve fixed energy costs. Savings can be redirected from operations into programming so nonprofits can do more of what they do best - strengthen communities.

Eligibility & Benefits

- Nonprofits located in Western Pennsylvania's low-income communities or serving underserved populations are invited to apply.
- Get free technical assistance from the PA Solar Center to identify grants through the Inflation Reduction Act and other sources that reduce the overall cost of acquiring solar energy systems.
- Access the meaningful benefits of renewable energy, from permanently reduced energy costs to increased climate resilience that results in healthier communities.

Amount:

Loans up to \$200,000 can cover upfront costs, bridge grants, or fund gaps

Term:

Up to 15 years

Fee:

Waived origination fee

Rates:

Below-market interest rates from 3% - 5%
**limited time offer*

Guidance:

Free technical assistance on how to implement solar energy system

Let's Talk

We specialize in lending to mission-driven organizations, because our financing is mission-driven too. Let's talk about how we can help.
